The radicals have opened a vigorous and practical campaign against the President. The committee appointed at the cancus last Friday avening is therough and intense in its determination for a break with Mr. Johnson. It has had several meetings on the subject, and has resolved to raise \$50,000 by levy upon office-holders, and by subscription, for the vigorous prosecution of the war. It has decided to print and sirculate enormous editions of Trumbull's and Fessenden's replies to the veto message, and of the claborate and virulent attack made upon the President a few days since in the House by Mr. Williams, of Pennsylvania. It has made an assessment of twenty dollars upon each of the Republican members of Congress, some of whom have paid up, and others are holding the matter under consideration.

They propose also to make Jay Cooke treasurer of the erganization, and to take rooms on Pennsylvania avenue as the headquarters of the new crusade. As everybody anticipated, Colonel Forney, D. D., has lost no time in presenting that the Chroniole is a losing concern, and appealing to them and their constituents for substantial aid. A communication to the Missouri Republican, dated Caage county, Illinois, February 9, says: The communication from the Cintinnati, Gazette which was reprinted in the weekly Republican of February 2, attracted my attention. As I happened to be in that extraordinary storm of rain, mow and hail, thunder and lightning, on the 19th of January, between the hours of four and five P. M., near the banks of the Osage river, in Osage county, Missouri, I was somewhat surprised at seeing the same stoym extending itself as far as Rock-ville, Indiana, in the short space of bur hours. Looking on the map, we find the distance not less than five to six degrees of longitude, which will give us about one hundred miles per hour over which the storm passed. Our hest locomotives can not cope yet with such a speed. I suppose likewise that the change in the thermometer must have been equally as great here from the effect of the cold wind produced on the ground half an hour after the storm had passed.

Does the Journal stand by the President's speech? That is the question.

The Effect of Johnson and Seward's Wonderful is the change in the tone of public feeling produced by the speeches of Johns. Is the one most generally in favor; and it is thought that Mr. Lyon's invention, or rather his application of old principles, will serve to overcome the difficulties under which the mining operations of Colorado have hitherte labovercome the difficulties under which the minimized that twang-nosed, self-assumed, holier-than-thou insolence, and importance of manner put on by the Republicans, and extinguished much of that persecuting bitterness of feeling and expression toward the South, herefore so of femively exhibited by them. They have caused the Republicans to be somewhat conscious that the knewledge of their own earlier treason, which provoked that of the South, is not lost, and still highers in the minds of many men; and, henceforth, will be more widely and openly thought and spoken of. They feel in open that they are not regarded as being without sin, and will not be tolerated in prating about their own pactliar loyalty, and the disloyalty of the mineral lands is renewed, in another they are not regarded as being without sin, and will not be tolerated in prating about their own pactliar loyalty, and the disloyalty and the first and the policy of the south of t Republicans, that is the radicals, can not, for a long time, recover from the bewildering shock they have received. They seem confounded, like the builders of the tower of Babel. They can not understand, much less agree with each other. They are knocked out of a policy, and are now wandering in political blindness. They are awfully demoralized.

These lodes are particularly well situated for mining operations, and if your capitalists should be solicited to interest themselves in Colorado property, I know of no location where they could invest to better advantage.

Perhaps at some future day I will attempt to describe, for your readers, how the gold is found here, and the processes by which it is obtained. Of these

Resolved. That we indorse and approve the Besolved, That we indorse and approve the course pursued by our representative in Congress, Hon. W. E. Niblack, and feel proud that our district is one among the few, in these times of the prevalence of fanaticism and passion, that has the honor of being represented by one conservative and patriotic in his views.

Resolved That we indorse and approve the course pursued by Hon. James D. Williams, Senator from this district, and Mr. John B. Patterson, our representative from Khox county, in the late Legislature of Indiana.

Resolved, That we are constrained to denounce the profligate, corrupt and extravagant administration of the State government under Republican or Abolition mismanagement and misrule, whereby they have been enabled to appropriate for their own use thousands upon thousands of dollars of the people's money, and thereby involved the State in millions of indebtedness and burdened the people with rulnous taxes.

On motion of the Honorable John Baker.

W. B. Rebinson, Secretary.

Lagrange County Democratic Convention.

Lagrange, Indians, March 8, 1886.

Pursuant to notice, the Democracy of Lagrange county met in convention and appointed the following officers:

On motion, Cyrus Filmore was elected chairman, and Andrew Eminger was appointed secretary.

After the usual business of such meetings was disposed of, a resolution was unanimously adopted sppointing Hon. S. E. Perkins, editor of the Indianapolis Herald, to cast the vote of Lagrange county for the State officers at the Democratic convention, to be held on the 15th of March.

The Democratic central sommittee is composed of A. Ellison, Andrew Eminger, H. Climsted, F. Henry, and T. J. Shoer.

Andrew Eminger, Secretary.

Government.

Resolved, That each State has the exclusive power to determine the qualifications of voters in such State; and, in the exercise of that right, we are in favor of conferring the right of suirage on the WHITE RACE only.

Resolved, That we are opposed to the doctrines and policy of the Republican or Abolition party, tending to establish and recognize negro equality, and especially do we arraign the majority of the last Legislature of this State for its many efforts to accomplish this purpose, and to remove all constitutional restrictions on negro emigration to this State.

Resolved, That the action of the late Republican convention in this State, in failing to declare the position of its party on the various questions connected with negro equality, when taken in connection with the action of the Republicans in the last General Assembly, afford indubitable evidence that the party is too cowardly to declare its principles, and therefore unworthy of the confidence of a free people.

Hesolved, That the system of class fegislation allowed by their party generally, whereby in the selection of cambidates and appoint such number of delegates as the central committee may appoint.

It was then agreed to hold a county convention on the 14th of April next, to nominate a county ticket.

After directing the secretary to furnish a copy of the proceeding of the convention to the Nashville Union, and the Indianapolis Herald, requesting their publication in said papers, the convention adjourned with three rousing cheers for the Union and Andrew Johnson.

Another Financial Sensation--Convention of Southern Internal Bevenue Officers--The Bill for Increasing the Regular Army--Secretary McCulloch's Loan Bill. McCulloch's Lean Bill.

New York, March 7.—The Times' Washington special says that there has recently been a convention of internal revenue officers of the Southern States, at Atlanta, Georgia, which appointed two commissioners, consisting of Assessor Bowles, of Augusta, and Collector Moses, of South Carolina, to proceed to Washington, for the purpose of urging upon Congress the modifiation of the test oath, so far as it affects assistant assessors and deputy collectors. Under the advice of the Secretary of the Under the advice of the Secretary of the Treasury, and in consequence of the impossibility of obtaining men who could take the test oath, assistants have been appointed in many cases, who could only partially qualify, with the knowledge that their pay would depend upon the action of Congress in modifying the oath. To urge Congress to do this, is the object of the commissioners, and failing in which they will urge the salaries of these assistants to be made large enough to induce Northern men to go to the South and accept offices. With these it is charged that Colin carried on ruinous stock speculations, and finally confessed his offense to his employers. The case was argued before Judge Cardoos yesterday, on a motion to discharge the prisoner from the county jail under the insolvent act. The World's Washington special says that The World's Washington special says that the House Committee on Military Affairs have completed the bill for increasing the regular army. It differs very materially from the Senate bill, and igneres entirely the recommendations of tenerals Sherman; Thomas and Meade. It provides that the army shall be made up largely of volunteers. The veteran reserve corps is fully provided for as an organization. It also provides for the retention of several negro regiments, to be officered by white men. Boards for the examination of officers are to consist of a majority of volunteer officers.

The proposition to revive the grade of General will not be included in the army bill. The probabilities are that the committee will de-
